

COMMUNITY OPEN PLAY AND CLUB EVENTS POLICY

Effective May 1, 2023

Authority: The Canadian Lakes pickleball courts are private courts belonging to the Canadian Lakes Property Owners Corporation (CLPOC). Per CLPOC Rule Article IV. Section 4.05, the Canadian Lakes Association, Inc. (CLA), will sanction and establish rules and regulations for the Canadian Lakes Pickleball Club (CLPBC).

Policy: The CLPBC will promote, organize, and facilitate participation in the game of Pickleball, utilizing various programs and systems, including but not limited to Community Open Play and Club Play programs, and a paddle rack system.

Community Open Play

The spirit of Community Open Play is that everyone gets to play with different players in a recreational and fun setting. The objective is to allow players to learn from playing with others. Skill-level play, and/or re-arranging of paddles so that people stick together, are discouraged during this time. It's an opportunity to welcome non-club members, and introduce them to some of the benefits that club membership has to offer.

Club Events and Programs

Club events and programs are predetermined times available to club members only, for club activities, such as skill level play, team play, league play, periodic skill-level drills, tournaments, and events.
